

August 25, 2014

Mike Melvin
@ Your Pace Online
1607 Williams Hwy #6
Grants Pass OR 97527

Dear Mr. Melvin,

I have reviewed your organization's application to become an approved provider of continuing education under the Uniform Construction Code (UCC) Program.

After review of your application, the Department has approved "@ Your Pace Online" as a provider of continuing education courses that Pennsylvania code officials may take to meet their requirements for UCC re-certification. This approval applies to courses you offer on or after August 25, 2014.

The Department's Training and Certification regulations specifies (at 34 Pa Code §401.9) that an applicant for re-certification must complete from 15 to 45 credit hours of continuing education, at least 1/3 of which must be directly related to his/her code certification categories. Further, one continuing education credit will be granted for each hour of classroom time.

Please be advised that the regulation requires applicants for re-certification to submit evidence of the following: Name and address of the training provider; date(s) attended; credit hours received; title of the course; and, subject matter of the course.

Any certificates you issue should contain this information. This will facilitate the Department's acknowledgment that applicants who utilize your training have met both their general and specific UCC re-certification requirements.

Sincerely,

UCC Administrator
